Community Involvement Activities (Paid)	Youth Soccer - USSF Soccer Referee
Leadership Experience	Small business owner - 23 employees covering 6 states Church leader - Team leader in children's ministry
Professional Designations	MBA JD
1. What is your number one reason for wanting to serve on the school board?	I want to do more for our students. I believe that we can give our students more experiences in high school to prepare them for living life independently after high school.
2. What role does policy play/have in the function of the board?	I believe that the School Board should cast a strategic vision which will include some "big picture" policy work. Then, the vision, goals and policies should be executed by the administration.
3. What legislative action at the state level would you support to improve education in our community.	Generally, I prefer less state (and federal) government involvement in local affairs, such as a community school. But, if there is going to be involvement, I think there are few things that are more important than education. So, I would be in favor of diverting dollars from other departments and programs and giving more funding schools.
4. What do you think is the biggest issue facing your district?	We need a strong School Board that leads. Strong will include better relationships among board members, more discipline in working with administrators and a greater presence at school functions. Leading will include casting a vision, setting goals, monitoring progress, measuring results and holding parties accountable.

5. If you were elected what one thing would you like to accomplish during your term?

I would like to implement a consistent and more rigorous grammar/phonetics/spelling curriculum district wide. This will greatly benefit our students by establishing a strong core on which to build and grow a lifetime of education.

6. Do you or have you had children in the Hamilton Southeastern school system?

YES

Preferred Contact Information (How do you want voters to contact you?)
