(317) 588-1707

BW Supplies has amassed a supply chain of manufacturers able to procure over 4,000 products, most of which are designed to combat COVID-19. Attached is a list of the products that are in high demand. Please let us know what quantities you need per week/month/year, and we will let you know if we can meet this demand. If so, we will establish shipping lead times and finalize with a purchase order. Purchase orders are non-binding until pricing and shipping terms are agreed upon. We are looking to secure 6 to 12-month agreements that will be fulfilled through biweekly and/or monthly deliveries. My direct line is 317-441-8659, or you can email me at [sales@battinwoodruff.com](mailto:sales@battinwoodruff.com).

Respectfully,

Brad Battin
